

Synopsis

Project Title: StoryTale

Class: CSE - 3 | Year: 4th

Project Guide: Ms. Ashu

Contributed by: Jasmeet Singh(01776802721)

Project Overview

The **Storyteller App** is an interactive platform designed to bring storytellers together in a collaborative and engaging environment. Users can start a story, invite others to contribute, and watch their narratives evolve in real-time. Whether it's fiction, poetry, or a choose-your-own-adventure tale, creativity knows no bounds in this dynamic storytelling space.

Key Features:

Collaborative Storytelling: Users can start a story and allow others to contribute, building an interactive and evolving narrative.

Real-Time Editing & Updates: Writers can see contributions in real-time, ensuring a seamless and engaging experience.

Genre & Theme Selection: Customize stories by selecting genres like fantasy, sci-fi, thriller, or romance.

Community Engagement: can follow someone story.

Public Stories: open to the entire community.

Target Audience:

- Aspiring writers and creative enthusiasts
- Storytelling hobbyists looking for collaboration
- Writing communities and book clubs
- Educators and students for creative writing exercises
